

Pay WHAT???

Over \$22 billion for a \$2 billion project,
to foreign corporations,
for tunnels we've already paid for, plus
a new tube "to nowhere" (no new roads)

WHAT A DEAL!

Fortunately this bad deal is not a "done deal" because we're fighting for a better deal in court! Visit our website for more information about this attempt to privatize our roads, bridges and tunnels to profit foreign corporations at our expense.
